13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year

Plan of Action	Achivements/Outcomes
To provide student development program in communication.	It boosted the confidence among students. Due to this many students started participating in various debates and other literary activities.
To Provide training to all the faculty members in digital mode of working and how to use digital classroom of Google to improve productivity	The faculty members started using Google Classroom, preparing notes on PPT and Word and started uploading the assignments on Digital Platform, it helped us continue teachinglearning process during lockdown period.
To provide entrepreneurship Training to the students	The students came out with Herbal Sanitizer and herbal repellent.
Planning of extra curricular and co curricular activities at the beginning of the academic session.	It helped us in conducting the events without any clashes and also helped us in utilizing the resources optimally.
To develop a stress free environment for students and faculty members.	It helped us during the lock-down period as no panic was reported by students and faculty members. Everyone was given proper guidance, digital learning platforms and training to use the digital mode of learning and activities.

#### 2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The students of our college are the main stakeholders. Evaluation of the academic performance of students is necessary to ensure the success of students within the framework of educational goals and objectives. Evaluation is based on clearly defined criteria like submission of the worksheet by the students, unit test after every unit, or open-book test for weak students so that they can frame the answers as per according to the questions. Notes and assignments provided to the

students through Google classroom. On the basis of unit tests and responses in class, students are segregated into A, B, and C categories. Every 15 days analysis of each and every student for their improvement in performance carried out. Any problem faced by student is solved through one to one counseling. Further, tutorial and remedial classes help C category students to understand topics in a better way whereas in-depth knowledge is being imparted to the A and B category students. Midterm and Pre-University exams further help the students to self-analysis and prepare themselves for University exams. For the overall development of the students, soft skills, competition classes, and value-added courses prepare the students for government jobs and meet the corporate requirements. These skills help the students in a placement through training and Placement cell of the college. Further, different clubs are formed like cultural, sports, literary, alumni, and likewise, help the students to show their talent and build up confidence. We try to inculcate a sharing and helping attitude among the students in NSS activities. Educational visits help to relate and nourish theoretical knowledge practically.

#### 2.5.3 - Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Before starting an academic session, Director along with the Principal and Vice-Principal conducts a meeting with HODs and then finalizes the Academic Calendar in alignment with the University Schedule. A department wise activity and workshop schedule is also pre-planned for smooth functioning. This ensures that the curriculum is enriched through related activities like quest lectures, workshops, and industry interactions. The academic calendar is shared with the head of the departments so as to ensure proper execution. Our academic calendar provides important information about the dates of teaching schedules, exams, and extracurricular activities. The college academic calendar is designed considering all events in accordance with the University academic calendar. It includes commencement date, closing date of the term, dates of internal tests, college festivals, submissions, oral/practical exams, tentative dates for University theory, and practical exams. Celebration of National Holidays and college foundation days are also mentioned in the academic calendar. The Parent-teacher meeting date is also mentioned in the academic calendar. Faculty conducts lectures and practicals as per the timetable in alignment with the academic calendar. Exams and result declaration are strictly followed on the dates mentioned in the academic calendar. The effectiveness of the process is maintained through effective monitoring by the Principal/Vice-Principal.
